

Results of the Danish History Competition 2007/2008

1. Topic

We had two topics due to a change in the Danish curriculum which implies that the students have to make multidisciplinary essays in the last grade. Topics:

- A. My History – Family, Places, Culture
- B. History in a Multidisciplinary Essay

2. Number of participants

We had 62 participants, 22 in A-competition and 40 in B-competition. It was the best number so far in three years. Maybe due to the possibility of writing a multidisciplinary essay.

3. Subtopics

Within both competitions the topics varied a lot, some of the contributions in the first topic were about grandparents and old family members. In the interdisciplinary competition all kinds of subjects were chosen from physics and history to language like English and Spanish and history.

4. Experiences from this years competition.

We felt that it was right with two competitions, and the knowledge of the competition is about to be spread in schools. We will continue with the competition next year (2008-2009) and we will decide upon the subject or subjects in the beginning of August 2008.
